Explanation of Local Expenditures: School corporations could experience a minimal increase in administrative time and cost in implementing the provisions of this bill. The specific effects would vary by school corporation and would depend upon local action.

Under current law, school corporations are required to establish written discipline rules and give general publicity to these rules within their respective schools. In addition, school corporations are allowed to adopt rules compelling individuals having care of a dependant student to take part in disciplinary conferences.

In accordance with this bill, school corporations would be required to compel such individuals (via existing discipline rules) to take part in disciplinary conferences under certain circumstances.
